

The Good, the Bad, and the Internet

Everyone knows the Internet is a great way to obtain information, communicate more effectively, watch cat videos, and make your organization more agile. Cat videos aside, there is a very dark side to the internet which can cripple or even force companies out of business. Cyber threats have changed drastically over the past few years. Your security plan needs to change with the evolving threats.

Join us for lunch on December 7th at the UCA office for a non-technical educational discussion to learn:

- 7 recent trends that need your direct attention.
- The mindset every employee needs to adopt to protect your organization.
- #1 Attack vector that can lead to Financial Loss, Ransomware, and Malware.
- The biggest problem with most security plans and how to fix it.
